Dear readers...

This issue arrives just before the Croydon Show on Saturday 16th July and I'm sorry we didn't include **Fiona Morris** on the list last month. She'll be in the entrance hall, so do look out for her. Plans for **Machine Knitting LIVE!** at Chepstow are also well in hand. As you'll read on Page 16, we've two new faces this year. We'll welcome Wendy Piper of **Knits 'n' Bits** as well as **David Hampson**. David is well known to our Scottish readers for attending many of their events and other exhibitors so far include **Anne Baker** and **Karabee Designs**; **Hilary Belton** with **Busy Bee** patterns; **Arnold Bennett** with buttons and yarn; **Clair Crowston** with her patterns; the **Guild of Machine Knitters**; **Hague** linkers and accessories; **David Hampson** with quality yarn; **Beryl Jarvis** with Info Sheets and her DVD; Wendy Piper with **Knits 'n' Bits** and used machines and accessories, **Silver Reed** knitting and sewing machines plus overlockers; **Undy Yarncrafts** will bring yarn and lots of craft products; **Uppingham Yarns** always has a good selection of yarns and Sue Woolley will demonstrate **Woolley Weights**. **Alice Wilmshurst** will join me on the MKM stand with a selection of Passap items and I know she'll be happy to chat about any aspect of Passap machine knitting. The shows are now a lifeline for lots of us, as well as companies trying to keep machine knitting alive, so please try to support them all.

I'd a really interesting chat with **Alan Davies** at **Steele's** recently. His advert has been in Market Place for more years than I can remember and although he's semi-retired, he still enjoys servicing and selling machines and accessories. He's always happy to help and he passed on a really useful tip. If you're concerned about which oil to use on your machine, take a plain white china saucer. Put a few drops of the oil on it and look at the colour. If it remains clear and transparent, it's fine to use. If it has the slightest yellow shade, it probably contains linseed oil and this dries and becomes sticky so don't use it or you'll gum up your machine in time. Thanks Alan!

My other important call was from **Alan Hunt** to let me know that there will be a **15th Nottingham Show** next year. The date is **Sunday 15th April 2012**. Numbers were disappointingly low this year, but the date did clash with Mothering Sunday so he's moving the date and giving it one more year, hoping to attract more of you. Naturally I'll bring you more details in due course and end by hoping you enjoy the magazine and wishing you all a happy month of knitting.

Use your braids for unique curtain tie-backs, light pulls, luggage and camera straps, as charms for your USB stick, key ring or phone. Craft alive

Helen McArthur has written from Australia to tell us about the Machine Knitters of Wagga Wagga club. They're a friendly group of machine knitters, giving support and sharing knowledge with each other. Members include locals and other knitters from six towns within a 100 kilometre radius of Wagga who travel to meet at 9.30 am on the 2nd Tuesday of each month. Club days include demonstrations, help for new members as well as 'show and tell' - a popular part of each meeting. In November last year, the club reached its 30th year and members celebrated by cutting a cake during a workshop in Wagga, run for them by the New South Wales Machine Knitters Association. Demonstrator Margaret Ryan from Sydney was on hand to share her knowledge and expertise.

Members knit for various charities including 'Wrap With Love', formed by the late Sonia Gidley King in Sydney. Wraps are sent to the needy both locally and overseas and some years ago they received an SOS to knit blankets for an orphanage in Mongolia. It's run by an Australian girl and members knitted 75 rugs in six weeks. Sunrise Rotary in Canberra organised delivery and the pictures show some of their efforts. Members make small blankets for the special care nursery at their local Calvary Hospital as well as bonnets, booties and jackets for prem babies. Each winter jumpers and

beanies are knitted for the 'Guardian Angels', to be distributed to the needy. As if that wasn't enough, they take part in the New South Wales Cancer Council's annual 'Biggest Morning Tea'. A raffle is held with a knitted Quillow as 1st prize and for readers who may not know, it's a quilt with a pillow pouch attached. When folded, it looks like a pillow and when fully

unfolded it's a quilt to keep you warm. The public comes for morning tea and the club sells garments made by them then donates 10% of sales. This year they raised \$1606, well over £1000.

Demonstrators are invited during the year. Dianne Chambers has been a regular visitor for 25 years and they've greatly enjoyed visits from Carl Boyd and Irene Krieger. Some members travel long distances to participate in local shows as well as the Sydney Royal Easter Agricultural Show, winning many prizes over the years. In recent times they've been invited to have a stand at an annual 'Craft Alive' show in Wagga Wagga and it's proved to be great publicity for machine knitting. All in all, it's a wonderfully inspiring story of a very active club and we thank Helen for sharing the club's achievements with us.

Attention all Club Secretaries! Why not treat yourselves to a day out at one of these great venues? Whether it's a trip to stock up on yarn or a day out at a show, there are bargains to be had and plenty to be learned, so don't put it off any longer - call up today

Calling Cornwall

Reader **June Hollingsworth** wants to return to machine knitting after a break of 25 years. She has a **Knitmaster 360** with ribber and attachments and would love to find a club in **east or mid Cornwall** to help with machine maintenance. If you run such a group, please contact **Anne** and she'll put you in touch with June.

FOR ALL YOUR MACHINE KNITTING NEEDS

Dear Anne

This month our readers have lots to tell and share. If you've a favourite suggestion, a story to tell or a point to make then share it with us by writing to Anne at the usual address on page 3 or e-mail mail@machineknittingmonthly.net

Back to school

Hi Anne

It was great to see you at the Nottingham Show even if you were busy trying to snatch a moment to eat your lunch! I thought you might like to see this. The new school jumpers I've been knitting in such quantities for my two grandsons are all finished and a great success! I followed a Bramwell 4-ply classic drop shoulder pattern using Uppingham Yarns 4-ply Acrylic at Tension 7. It washes well and is great for the rough and tumble of the school playground. I attached the badges by ironing them onto Bondaweb, cutting carefully around them and blanket stitching onto the jumper. They were so good that one went missing at school, but two weeks later it reappeared just as mysteriously.

Best wishes from **Margaret Cummings** at Donington MKC in Lincolnshire. (Over the hill and enjoying sliding down the other side!)

As you'll read below Margaret, we've had another suggestion from Gail Webster for stopping the badge edges fraying and we're sure you'll find it interesting. Ed

NEVER TOO OLD

Dear Anne

Please keep MKM going, as it's the only machine knitting magazine and we really need it. Yes, I know most of us are 'old hands' and 'old' being the best description for many of us but we're never too old to learn or try techniques. As my workroom is now shared with my embroidery machine, computer and other equipment, my machines are always being put away to make room for other projects. Patterns for baby blankets on my Brother machine are always being asked for, so my garter carriage gets quite a bit of use now. Having been to Metropolitan for a day course on it, I'm no longer frightened of it. For a while, it was an expensive paperweight! Having the magazine constantly reminds us about techniques we've forgotten about, especially now that lace is back in fashion. Do keep up with all the interesting articles by both

longstanding designers and new faces. I've been trying Bill King's Fisherman's rib from the May 2011 issue and find it fascinating. Thanks again for an inspirational magazine. All the best from **Lynda Boyle** in Garstang, Lancashire.

IT WORKS!

Hi Anne

Just a quick line to let you know that I've tried a Silver Reed sponge bar in my Brother KH840 and it works very well. Best wishes from **Joyce Smith** in Fareham, Hampshire

TOOLS WITH A MISSION

Dear Anne

I thought I'd remind everyone that as long as knitting machines are complete they can be donated to Tools With A Mission. Their main headquarters is at 2 Bailey Close, Hadleigh Road Industrial Estate, Ipswich, Suffolk IP2 0UD. Their telephone number is 01473-210220

and the e-mail address is twamhq@twam.co.uk. Yours sincerely **Margaret Smith** in Bridlington, East Yorkshire.

FRAYSTOP

Hi Anne

I see that Margaret Cummings wanted to know how to stop a school badge from fraying if she cut it off another garment. We doll makers use a magic compound called Fraystop and there may be something similar if not identical in Great Britain, so if she could find some it would do the trick. It sets like a flexible glue and is washable. She could then sew the badge on any way she likes. We get our MKM one month later than you do, so she may have solved this problem already. I also relate to her excitement when her magazine arrives, I do the same when my husband comes home with mine. It's a great magazine and I look forward to every issue. I've knitted some lovely things out of it so thank you

Taking part

Hi Anne

I just wanted to let you know how much we appreciated having your Machine Knitting Monthly magazines for door prizes. We had a great time learning about machine knitting

and visiting with old and new friends. I hope you will enjoy seeing some of the pictures from the seminar and thanks for being a part of this. Best wishes from **Mary Karnes** of the Carolinas Machine Knitters' Guild

Courtesy of our American distributor Dorothy Rosman, we arranged for Mary to have six subscriptions to the magazine as prizes at her Guild's recent seminar. Ed

for producing it. Best wishes from **Gail Webster** in Auckland, New Zealand

CAN YOU HELP?

Dear Anne

I've been looking for a pattern for a baby's shawl. I've seen a photo of one I really like, but the pattern is no longer available. Also please can you tell me

where I can get a basic adults cardigan with set in sleeves? I've just started knitting again after twenty odd years and I live in Newport, south Wales. I'd love to be able to visit a local shop to chat and buy patterns and wool, but sadly it's no longer possible. I hope you can help me to become a knitter again. I love the magazine and thank you for

any help you can give me. Best wishes from **Mo Smyth**
As you'll see this time Mo, we're bringing back the classics in our Return Match series. This month we've a set-in sleeve sweater in tuck and stocking stitch and cardigans will follow in the coming months so do look out for them. Look out for the shawl next month

Style file

The holiday season is now in full swing and we should all be thinking how our knits will fare this summer. Whether you're staying at home or going abroad, **Sally-Ann Carroll** has one or two ideas to help you keep your cool

Chepstow Show 2011 – come and join us

We've everything well in hand for our second show in Chepstow. It promises to be a great day out for machine knitters and we've changed the date this year to **Saturday 30th July**. The doors open from **10.00 am to 4.00 pm** at the Leisure Centre, adjacent to the comprehensive school in Welsh Street (**NP16 5LR** for those with **Sat Nav**). The exhibition will include the usual mix of patterns, demonstrations, yarns, books and knitting machines. There's masses of free parking and you'll find the show entrance inside the building.

ADMISSION

Pay on the door if you wish and entrance is **£6 for everyone**. Advance tickets are still available at **£5**, saving you **£1**. **Children are admitted free** as long as they are supervised throughout.

DESIGNERS

As we go to press leading names include **Anne Baker** and **Karabee Designs**, **Hilary Belton** with **Busy Bee** patterns, **Clair Crowston** and **Beryl Jarvis**. Carl Boyd sends his sincere

apologies for being unable to attend either Croydon or Chepstow for health reasons.

DIRECTIONS

From the **M48** take the first exit over the old Severn Bridge. The **A466 Wye Valley Link Road** splits into two lanes. Don't go right to Chepstow but keep left to go straight ahead and follow the signs for the racecourse. You pass the hospital on the right, houses on the left and traffic lights. Keep going to a small roundabout at the entrance to the racecourse. Go round the roundabout, following the sign to Chepstow. After a couple of humps in the road and a zebra crossing, the Comprehensive School and Leisure Centre is immediately left. Be warned! Watch out for speed cameras along the route after the bridge!

LECTURES

As we don't have a suitable hall in the Leisure Centre for a fashion show, we're organising some quality free lectures. Look on the board when you come in to see what takes your fancy.

MACHINES & ACCESSORIES

We've lots of machines to tempt you this time with expert advice from **David Reid** at **Undy Yarns**, **Sue Woolley** with new **Silver Reed** machines and **Wendy Piper** with a huge selection of used machines and accessories. **John Scotton** will also be on hand with **Hague** linkers, twisters, winders and accessories.

A new face this year is **David Hampson** who will bring packs of major brands including **Wendy**, **Twilleys**, **Stylecraft**, **King Cole** and **JC Brett**. Pippin Designs

Many of you will remember Ruth and her lovely **Pippin Designs**. She's now retired, but her patterns have always been popular and Ruth still receives requests. As she's unable to help, we're reproducing some of her patterns in the magazine and we're most grateful for her permission. We've written the sleeping bag pattern as stocking stitch all over, so when it's folded it's plain on both sides. Many clubs now include hand and machine knitters so as Ruth's original pattern included hand knit instructions, we're including them here. Don't forget - if you've a special request for a **Pippin Design**, do let us know.

LOZ WINNEY

Student protests were **Loz Winney's** inspiration for her collection as a student at Kingston University

The student protests in London in 2010 triggered angry clashes between demonstrators and police and propelled the issue of higher tuition fees to the top of the political agenda. A student at Kingston University used the protests as a source of inspiration for her fashion collection. Loz Winney, 26, took part in two demonstrations in central London and at one point was part of a group that was penned in, or kettled, by police. She wasn't involved in any kind of violence at all. In fact, she really went along to photograph the march, but there were CCTV cameras everywhere and she was very aware of police helicopters filming overhead. It led her to come up with the idea of 'social armour' as a way the individual can protect his or her privacy.

Loz noticed some demonstrators who were dressed in black from head to toe, including hoods and scarves to cover their heads and faces, while they were protesting. Afterwards, they'd take off their black outer garments and merge inconspicuously with the crowd. Using this for inspiration the outfits in Loz's women's wear collection all have two layers. The outer layers are made from black wool or cotton and are designed so the wearer can't be easily identified. Several are hooded and some reach down to the ankles. When removed, they reveal close-fitting undergarments knitted from delicate yarns in soft grey and silver.

Along with three fellow Kingston students, Loz has been editing a fashion blog called DryCleanOnly, which was chosen by Vice magazine to be part of its blogging network. After completing an internship with Louise Gray, the designer has invited Loz to help backstage at the past two London Fashion Weeks. ■

“ Kingston University fashion students exhibited on the catwalk at Graduate Fashion Week at Earl's Court on Monday 6th June ”

Kingston University

Kingston University is widely acknowledged as one of the UK's foremost centres for fashion education. Graduates from its BA (Hons) course have gone on to senior posts in leading labels including Armani, Burberry, Calvin Klein, Donna Karan, Gap, Givenchy, Karen Millen, MaxMara, Missoni, Paul Smith, Ralph Lauren, Twenty-8-Twelve, Vivienne Westwood and Yves Saint Laurent.

Points to note

- Trellis cables will involve stationary ribs at the edges at times and they need moving back to their original positions rather than crossing.
- You must knit a slack row before transferring, otherwise the yarn will break. Start off with plenty of slack such as Tension 9 or 10, but the fabric will look better if you can manage with less, depending on the yarn used.
- Use a 2x1 needle arrangement on half pitch rather than a 2x2 needle arrangement on full pitch.

MORE Crafty CABLES

This month **Bill King** is following on from February's Crafty Cable feature to work cables across the whole width of the fabric

I'm using the same principle described on Page 58 of the February 2011 issue, racking all the stitches in one direction and transferring some of them back in the other direction, crossing them over to form cables. This time I'm using a 2x2 rib with a 2x1 needle arrangement. With cables worked across the whole fabric, a slack row can be knitted on the ribber immediately prior to doing the

transfer, making the whole operation much easier. This only works when cables are worked across the whole row, otherwise the slack would show.

Traditional cables that twist in one direction only are not practical for this method, as you can only do so many twists before you get to the end of the rack and need to return in the opposite direction. In 2x2 rib, three

racks are needed for each twist so with ten places to rack on a Japanese machine, three twists are possible in one direction before returning in the other.

BLUE SAMPLE

We start with trellis cable knitted in 2x2 rib, again with a 2x1 needle arrangement. On the row preceding the transfer, knit a slack row on the ribber by turning the tension dial back to MT. Rack ribber three places to the left. At right hand side of the ribber, take second group of two needles and cross them over the first group to the second and third empty needles

from the edge, maintaining the 2x1 arrangement. Repeat across the bed. Bring all needles out before knitting across (set machine to knit them back) knit across, then knit another four rows. Repeat with the slack row and this time rack three places to the right. Start the transfer at the left and you need to cross the in-between ribs to achieve the trellis pattern. (If in doubt, open the beds to see which ones to cross.) The first area of pattern has six rows between each cable, then larger areas after every third cable.

BRIGHT PINK SAMPLE

Twisted over the same needles all the time, again knitted in 2x2 rib, 3 twists to the left with 6rs between then 10rs followed by 3 twists to the right with 6rs between.

PURPLE SAMPLE

This time work three twists to the left across the same needles, then a right and a left trellis followed by three twists to the right over the same needles.

PALE PINK SAMPLE

This one looks far more complicated than it actually appears. The twists are a regular one right and one left with six rows between and three twists over the same two ribs, with three twists over the in-between ribs. ■

Why not try...

- Cable detail at waist, cuffs and shoulders
- Cabled neck trims
- Sketching your own cable designs on paper before knitting but remember to have only three twists in one direction
- Don't worry if your cables go in the wrong directions or happen over the wrong needles; you're bound to create a new design!

Cardigan Bands PART 1

L
PART 28

This month **Beryl Jarvis** teaches us how to knit and attach bands to cardigans

Whilst planning this article, it was a strange coincidence that my own knitting club had an evening where the demonstration they wanted me to do was on cardigan bands! It was excellent because it gave me lots of up-to-date information about the sort of questions knitters wanted answered. This time, let's first think about how bands are knitted before going on, next month, to talk about buttonholes.

I try to encourage my students to think for themselves, use patterns only as a guide and try to create their own ideas. Just because a pattern has one type of band, you need not necessarily use it! If you prefer to knit an alternative band or attach it by a different method, then why not? There are no set rules about making cardigan bands, but first you should ask yourself some questions.

- Is the garment knitted sideways or lengthways?
- Would the band look best knitted sideways or lengthways?
- Will the band be knitted using the ribber or on a single bed?

After making the decisions about those three questions, think carefully about the following five points.

Diagram 1

Diagram 2

MACHINE KNITTING MONTHLY IDEAS

Perfect for a party try Italian **Bolero** from Mondial at Uppingham

NUMBER OF STITCHES WIDE

If the stitches of the band are to form the length of the band and the garment is knitted lengthways in plain knitting, as in Diagram 1, a quick calculation of the number stitches is required. A simple rule of thumb is to pick up three stitches from every five rows. Therefore if you find how long, in rows, the cardigan edge is (including the welt) then divide it by five and multiply by three it will give the number of stitches needed for a band that will lie nicely. If the stitches are to form the width of the band, look at the welts or the samples that you should have made and think carefully about what the band will look like when attached.

NUMBER OF ROWS TO KNIT

- a If the rows are to form the width, as in a sideways-knitted band, look again at the welt to work out how long to knit the band.
- b If the band is going to be knitted lengthways, has the cardigan a 'V' neck or round neck?
- c If the garment has a 'V' neck and the band is being knitted on the ribber in one length, look at your sample or the garment welts to work out how many rows are in one centimetre. Don't measure the actual garment to work out the length, but use your pattern shape for the calculation.
- d If the garment has a round neck, decide whether the neckband will go over the front bands or if the front bands go right up to the neck?

Work out how many rows are needed: -

- a From the bottom of the welt up to where the 'V' starts, because this is usually where the last buttonhole is worked.
- b From where the 'V' starts to the shoulder seam.
- c Across the back neck, because from this you can work out the total length and mark the edge that will be joined to your garment as you knit at the point where it's to match either side of the neck and the beginning of the 'V' on the buttonhole side.

I know a lot of knitters knit a band longer than they think they will need, marking the strip every 50 rows then sew it in position, undoing what is not required. I think the last time I did it

this way, I had to sew it in, take it out, sew it in and take it out several times before I was happy with the result! I always prefer to knit the band to the correct length.

When the band has been knitted, don't cast it off. This will make a firm flat edge that is quite different to the ribber cast on edge. Instead, change your ribber setting to circular, leaving a long tail. Break the main yarn and knit at least sixteen rows in waste yarn. The edge can now be bound off. If you're not sure how to do this, a diagram and full instructions are on my Info Sheet 1.12 Binding Off Ribbed Fabrics.

TENSION

Always knit bands firmly, because tension is the secret of a good finish. On a cardigan that has a 1x1 ribbed welt, the band will be firmer if it's knitted as full needle rib and not look too dissimilar. Read on for more information about tension on single bed bands because I've included details with the samples.

JOINING THE BAND

If you're picking up stitches from the garment edge, the band will: -

- a Already be joined.
- b If it's to be knitted, then the edge of the garment is picked up and the band will be joined on the machine.

If you're knitting the band lengthways, it will probably need sewing on afterwards. This can be done by hand and mattress stitch is by far the neatest method.

I've also used my Hague Linker quite successfully to sew cardigan bands onto a garment. It's important to think about how the band is going to be attached before you start knitting, as one stitch from the band and one from the garment are going into the seam. You also need to think what the finished right side will

look like, because you may need to add a stitch for joining. If you add a stitch to the outside edge of a ribbed band, the edge is usually neater. These extra stitches can be added after the zigzag and circular rows are knitted. Always plan the joining before knitting, trying different ideas out on samples, if necessary.

BUTTONHOLES

Finally, consider where the buttonholes will be and how they will be knitted. Having promised that we'll look at knitting buttonholes next time, you should now have (or think you have) the answers to all the above questions! As students in my class are working on single bed machines, we'll look at a few single bed samples of cardigan bands. The usual abbreviations are used, where appropriate.

Sample 1a The garment is knitted sideways. The band is started with a few

rows in WY, one row is knitted with the nylon cord and a single bed hem is made. * K 8 rows at MT-1 (MT less one whole number) K 1 row at MT+3 (MT plus three whole numbers) to make the fold line then K 8 rows at MT-1 *. Pick up loops of MY from above the nylon cord, thus having two loops on most Ns. K 1 row at MT+1 (MT plus one whole number).

Sample 1b The garment is knitted then finished with a band. Mark last row by bringing every other N forwards to HP. Put weaving brushes into working position. Lay a nylon cord over stems of selected needles and hold it, not too tight, while the row is knitted. Knit the band as given for Sample 1A from * to *. Pick up every other loop from marked row onto every other N. K 1 row at MT+1, then K 1 row at loosest tension possible and cast off with latch tool.

Sample 2a The garment is knitted sideways, started and finished with a few rows in WY. Over same number of Ns, cast on and K a few rows in WY. K 1 row with nylon cord then knit band as Sample 1A from * to *. Pick up loops of MY from above cord row, K 1 row at MT. Pick up sts from garment. K 1 row at MT+1, then K 1 row at loosest tension possible and cast off with latch tool.

Sample 2b This is worked as Sample 2A, but with a small alteration. Before knitting row at loosest tension, K 4 rows at MT to make a facing. Pick up loops four rows into garment and »

« place onto every other N, then K 1 row at loosest tension possible and cast off with latch tool.

Sample 3a The garment is knitted lengthways. With wrong side facing, pick up 3 whole sts from every 5 rows, 2 loops will be on each N. K 1 row at MT. If you want to knit a band in mock rib, transfer every 3rd st onto its adjacent N and leave empty Ns in NWP. If you'd like buttonholes, they're not always as neat in mock rib. Knit band as given in Sample 1A from * to *, place st from garment edge onto every other N, K 1 row at loosest tension possible and cast off with latch tool.

Sample 3b Garment is knitted lengthways. With right side facing, pick up 3 sts from every 5 rows. K 1 row at MT. Knit band as given in Sample 1A from * to *. Place stitch from garment edge onto every other N. K 4 rows at MT. K 1 row at loosest tension possible, then cast off with latch tool. This gives an attractive roll of fabric next to band.

Sample 4a Garment is knitted lengthways. The band is also knitted lengthways with the garment, adding on extra stitches as shown in Diagram 2. With latch tool and right side facing, latch up every other loop on fold line. Sew facing edge neatly to ladder left by N in NWP.

Sample 4b Garment is knitted lengthways. The band was made and attached as my Info Sheet 1.9 Sew and Cut / Cut and Sew. This band goes over the edge of the garment, finishing it neatly. Why not try out some of these bands in preparation for next month's article on buttonholes? Until next time, happy knitting! ■

Classwise revisited

Beryl Jarvis ran a very successful course in Leicester for more than ten years and her **Classwise** series of articles is based on life in her classroom and her teaching. The series started in *To & Fro*, then continued in *Modern Machine Knitting* and ended some long time ago here in *Machine Knitting Monthly*. So many knitters are retuning to machine knitting and asking for our help that we've decided to publish the articles again. This will not only give beginners a chance to follow through the course, but also allow those returning to machine knitting to make a fresh start.

Beryl's **Info Sheets** are still available to readers and if you'd like a list of the full set, including prices, please send Beryl a self-addressed and stamped envelope to:

Miss Princes sent an easy mock lace to try, using release stitch and 4-ply cotton. She mentioned that a cast-on comb is good for this pattern. CHICKEN OUT

Angela Gibson pulls us up by reminding all of us that we don't 'chicken out' by using cut and sew necklines. It's a recognised technique and she'd always recommend it, especially for complicated stitch patterns such as 3-colour and 4-colour Jacquard. She also always finishes her neckbands on the machine using Kathleen Kinder's method, which gives a perfect back stitch

look on the right side and a chain stitch on the wrong side. It's a timely reminder Angela, because Mrs Allan-King has graduated from her old 'pink' Passap to the Passap E6000. (She sold her Duo S to a friend and they now have a super time playing teacher and pupil.) She's now had her first experience of cut and sew and couldn't believe the knitting wouldn't unravel, until she was shown a four year old jumper that had been machine washed and tumble dried many times and was still intact. Trudie Howard sent a pattern for a girls' pinafore dress using AX and pattern with Deco card 18 to give a variation on the honeycomb pattern. Try using 2/30s yarn and you'll need 75 grams each in white and blue. Cast on over the whole bed and after a few circular rows, set machine as follows. Select any favourite border and knit about 100 rows without the Deco, but still using the DX setting and knitting 2 rows white and 2 rows blue. Adjust for length, change to the HX setting and knit between 30 and 50 rows. Cast off all needles left of centre and 12 needles each

DOUBLE POLO COLLAR

Marion Pilkington knitted this using 2 ends of 2/30s yarn on her Duo80. Cast on over 42/42 sts and the following needle arrangement.

Front Using stitch size 2, rack back bed, leave a long tail of yarn for sewing up and K 1 row. Set locks on CX/CX and using stitch size 3½, K 2 rows. Rack bed to WP and using N/N with stitch size 4½, K 60 rows. Push up all non-working needles and K 4 rows on CX/CX. Change to N/N and inc 2 sts at each end of back and front 6 times in all. Rib 120 rows for Front and 100 rows for Back. Cast off.

Back Work as given for Front noting alteration in number of rows worked. Join rib top to shoulder; turn inside out and join shoulder on each side.

LEGGINGS

Christine O'Donnell reminds us that in the Passap Baby Book leggings are all made in two sections – a front and a back. It saves time on both knitting and swing up if you knit from the centre front to the centre back. Cast on twice the number of sts given for one leg and at the crotch, divide the increases between each end of the needlebed. Christine reminds us that this is much easier than re-hanging a leg from decker combs, only to discover a nasty line across the work later. ■

Papillon

Here's the latest dog design which **Jo Newton** has specially created for a knitter in the USA

Jo was really pleased to read the letter from Greta Morton in last month's magazine and to see her lovely picture, especially as the ferret design was all done by hand selection (see July 2011 Page 12). Jo has also sent us her latest dog designs, requested from the USA. Jo has previously designed a Boston Terrier for the same knitter, which is very good and available if anyone wants it. (Jo didn't think it was particularly well known over here, but is happy to be proved wrong!)

When she requested the Papillon, Jo's customer told her that she'd used the Boston Terrier design to make quite a lot of money for their rescue charity and Jo thinks the Papillon is for the same purpose. It's generally accepted that the breed is descended from the European Toy Spaniels that feature in many of the Court Paintings from the 15th Century onwards. They were firm favourites with the ladies of the Court and it's rumoured that Marie Antoinette's own Toy Spaniel accompanied her to the guillotine. These lively and intelligent yet tiny dogs (8 to 11 inches

to the shoulder) are known for their large, erect ears and are often called 'butterfly dogs'. They can be tan and white, or have black markings with some tan mixed in (particularly on the face) which can be Swiss darned. Eyes and noses should also be Swiss darned for full effect. Jo has sent us the pictures she had to work from and we're sure you'll agree that she's done a splendid job. ■

“ It's rumoured that Marie Antoinette's own Toy Spaniel accompanied her to the guillotine ”

Happy to help

Do remember that Jo is always pleased to work on special projects for MKM readers and if it is obviously a design that will appeal to others and be suitable for publication it may even be free of charge. So if you've a new idea for her, please get in touch. Don't forget that she'll also put any of her patterns on disk for Brother FB100. DesignaKnit files can be sent as e-mail attachments and she now offers PDF files. Although she does not now attend shows, all her pattern sheets and booklets are still available by (rapid response!) mail order and she loves to talk on the phone, or correspond by e-mail with fellow knitters. You can write to us at the usual address or get in touch with Jo direct and here are her contact details. **Jo Newton**, Barrowby Old Hall, Grantham, Lincolnshire NG32 1BX. Tel 01476-563111

Surf the net

Jo writes, "Many knitters nowadays are computer literate, but if not, there's very likely to be someone in the family with access to the Internet who is. I'm sure they'd be delighted to show how clever they are and demonstrate their equipment. Why not ask them to help you have a go at surfing the web to have a look at some of the sites dedicated to machine knitting, most of which have links pages, which can send you on a long journey to many different interesting addresses. You could always start with mine, which you will find at www.jonewton.co.uk and which has recently been completely revamped. (Don't forget, there's also the MKM website at www.machineknittingmonthly.net)

You'll find that several designers offer their patterns as **PDFs** and although the initials stand for **Portable Document Format**, I prefer to think of it as **Printout Design Favourites!** These can sometimes be downloaded straight away, or received as e-mail attachments by contacting the designer. Imagine a knitter in New Zealand or the USA for example who wants one of my individual design sheets or booklets immediately. All they have to do is e-mail me with the request, I quote the price, which doesn't need to include horrendous postal charges and send a **PayPal** invoice. They pay me through PayPal, which enables me to accept credit cards if they don't have their own PayPal account and PayPal sorts out the currency conversion. I assemble and attach the designs and the whole transaction is done in a few hours. The patterns can be saved either to be printed out immediately or as and when they're needed. I used to think that a fax machine was as near magic as we could get, but PDFs really beat all. By the way, to read PDF files it's necessary to have the **Adobe Acrobat program**, which is on most computers but can be downloaded **FREE** from www.adobe.com

Mock rib instructions

Used for welts, cuffs, neckbands and other edges on single bed machines without a ribber.

Push the number of main bed needles given in pattern to working position. Push every alternate needle back to non-working position for a 1x1 rib or every third needle back to non-working position for a 2x1 rib. It may be necessary to reduce this number by one needle at one or both edges to keep the rib even. (Increase the stitches after the mock rib has been worked to give the same number as the pattern.)

Using main tension and waste yarn, cast on and knit a few rows ending with carriage at left. Set row counter at 000. Using at least two full sizes tighter than main tension, knit the number of rows given in pattern for rib. Using three full sizes looser than this tension, knit one row. (This loose row gives a neat fold line.) Return to two full sizes tighter than main tension and knit the same

number of rows as before. Push empty needles from non-working to working position and make a hem by placing loops of first row worked in main yarn evenly along the row. Make sure that each empty needle holds a loop to prevent a row of holes across the work. Unravel waste yarn when work has been removed from machine. After garment has been blocked to size, insert a metal welt bar or thin, clean piece of wood through the hem and pull firmly downwards to draw the stitches of mock rib closer together. Set the stitches by steaming lightly on the wrong side, if pressing instructions permit.

Quick cast-on

This method can be used not only for speed but also when the edges are either hidden or to be gathered by pulling up yarn end. With carriage at right, push alt Ns to WP. Use tension dial setting and either MY or WY as given in pattern. K 1 row. Carefully hook on the cast-on comb. Push remaining alt Ns to WP and K 1 row. The carriage is back at right. Cont as given in pattern instructions. When knitting is removed from machine, pull yarn end at cast-on edge to gather up sts or, for a straight edge, pull yarn end to remove any slack and fasten off.
